Website

Computer Science undergraduate with a strong engineering mindset and a focused interest in full-stack and backend development, system architecture. Adopts a project-oriented and curiosity-driven learning approach— deconstructing problems to their core logic before engineering clean, efficient, and scalable implementations. Into building reliable, creative web solutions with a developer's mindset and an explorer's curiosity.

Experience And Projects

Full Stack Dev • PetOLife Pvt. Ltd.

Jun '26 – Present

- Designing and Architecting AI-Powered core features for our current application
- Working as a Team Lead to plan and manage project workflows
- Learning DevOps and managing codebases to create production-ready builds and deploy applications

Learning Internship • Bharat Electronics Ltd.

Jul '25 – Aug '25

- Built and deployed a production-ready Predictive Maintenance System integrating real-time ML models with a dynamic frontend.
- Developed a Flask-based backend serving ML-powered live failure predictions via structured REST endpoints, with html-css-js and Jinja2 for frontend.
- Architected end-to-end workflow from data preprocessing to visualization

Major Project: Insider Navs

- Self-initiated indoor navigation system designed to solve real campus challenges.
- Learnt Loading Balancing, System design | Architected hybrid DB and caching mechanism | Integrated OSM and Data extraction pipeline

Major Project: RouteSaathi

- A Public transport fleet coordination system; Ranked Top 10 nationally by IITM
- Designed centralized control dashboard for monitoring route status and fleet operations.
- Developed system coordination framework for operational transparency and efficiency.

Education And Achievements

Presidency University | B.Tech

'23 – Present

Computer and Engg. [Data Science]

GPA: 8.4

- A Class Representative over 7 semesters with a CGPA 8.4
- Led to organize IEEE Tech Week '25 (5-day tech event) and secured a Certificate of Appreciation for leadership and event management impact.
- Secured Rank 1 (Internal Round) — Smart India Hackathon '25

MES PU College | PUC

'21 – '23

CS with Math and Physics

GPA: 92%

- A Class Representative for 2 Years with 92% results
- Winner - Personality Contest, Debate and Dance competition

Skills

Skills: PythonBackend, JavaScript, Postgresql, DevOps, React Nat, System Architecture, Team Leadership, Presentations

Interests: SystemDesign, UI-UX, OpenSource, Cyber Security, Cloud Technologies

Activities

- Teaching
- Event Organizing
- PublicSpeaking
