

IRFAN BASHA | RESUME

- » Status: Full Stack Intern at PetOLife Pvt. Ltd.
- » Skills: Python Backend, React, JavaScript, PostgreSQL, DevOps
- » Interests: System Design, UI-UX, OpenSource
- » Activities: Teaching, Leadership, Dance, Public Speaking

Summary

Full-stack developer specializing in the PERN stack (PostgreSQL, Express, React, Node.js) with backend and system design focus. Experience architecting REST APIs, implementing caching and load-balancing strategies, and deploying production-ready ML-integrated applications. Currently leading cross-functional workflows as a full-stack engineer at PetOLife Pvt. Ltd.

Experience and Projects

- | | | |
|----------------|---|-------------------------|
| June '26 - now | Full Stack Dev | PetOLife Pvt. Ltd. |
| | <ul style="list-style-type: none">» Designing and architecting AI-integrated backend features using Python and REST APIs, improving core application functionality for managing scattered medical records of pets» Leading a team of developers, managing sprints and workflow using Agile methodology» Learning DevOps and managing codebases to create production-ready builds and deploy applications | |
| July - Aug '25 | Learning Internship | Bharat Electronics Ltd. |
| | <ul style="list-style-type: none">» Built and deployed a production-ready Predictive Maintenance System, integrating real-time ML models with a dynamic frontend.» Developed a Flask-based backend with structured REST API endpoints serving real-time ML failure predictions; built frontend using HTML/CSS/JS and Jinja2 templating.» Architected end-to-end workflow from data preprocessing to visualization | |
| Major Project | Insider Navs | PERN Stack, Neo4j |
| | <ul style="list-style-type: none">» Self-initiated indoor navigation system designed to solve real campus challenges.» Implemented load balancing and system design principles; architected a hybrid db and caching mechanism (Redis); integrated OSM data extraction pipeline | |
| Major Project | RouteSaathi | MinT-ATHON build |
| | <ul style="list-style-type: none">» A Public transport fleet coordination system ; Ranked Top 10 nationally by IITM» Designed centralized control dashboard for monitoring route status and fleet operations.» Developed system coordination framework for operational transparency and efficiency. | |

Education and Achievements

- | | | |
|-------------|--|-----------------------|
| 2023 - 2027 | B.Tech - CSE | Presidency University |
| | <ul style="list-style-type: none">» A Class Representative over 7 semesters with a CGPA 8.4» Led to organize IEEE Tech Week '25 (5-day tech event) and secured a Certificate of Appreciation for leadership and event management impact.» Secured Rank 1 (Internal Round) — Smart India Hackathon '25 | |
| 2021 - 2023 | PUC - CS with Math and Physics | MES PU College |
| | <ul style="list-style-type: none">» A Class Representative for 2 Years with 92% results» Winner - Personality Contest , Debate and Dance competition | |
